

USER MANUAL

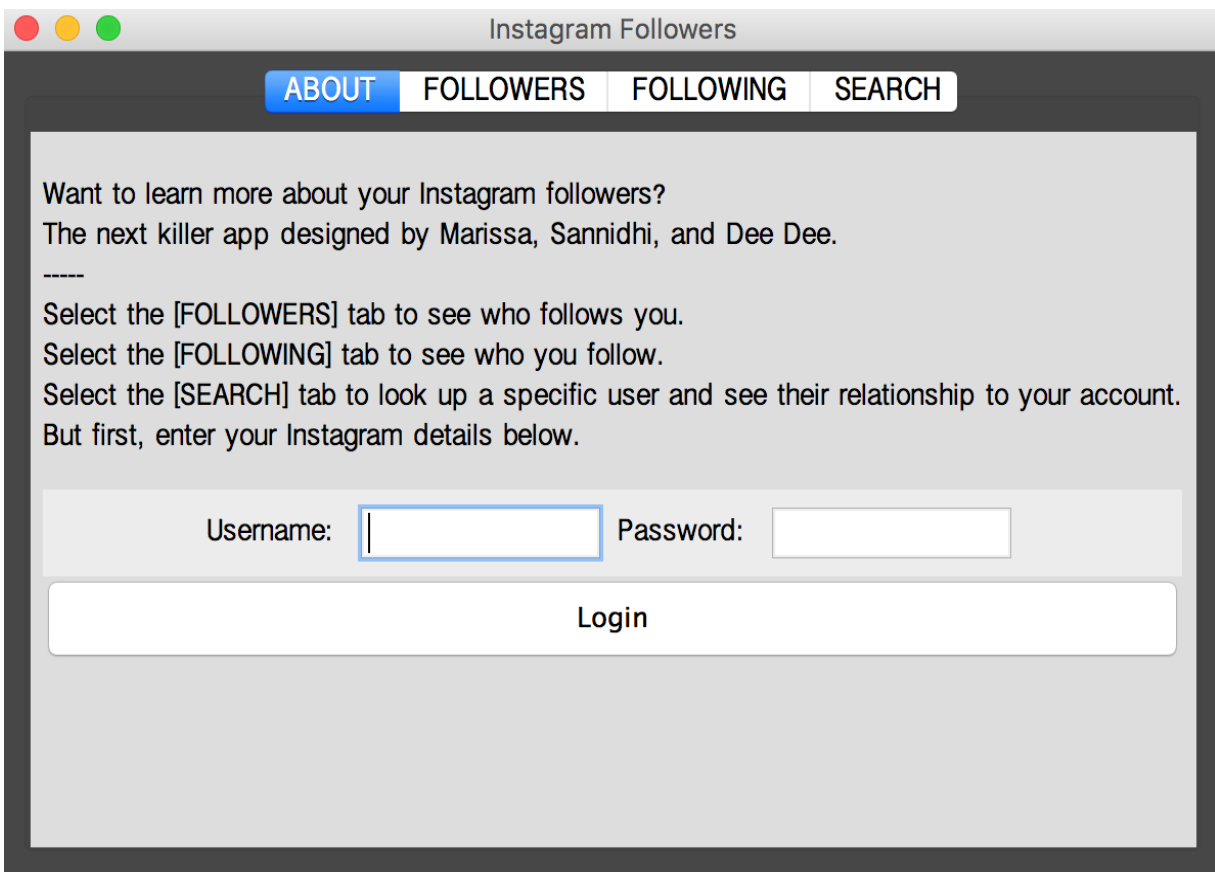

INTRODUCTION:

Instagram Followers is a program that will gather data on the client's Instagram account regarding their followers and the users they follow. The program will then give a breakdown of these numbers. The breakdown includes lists of all the people the client follows, all the people following the client, who the client isn't following back, who isn't following the client back, and mutual followers. The client is also be able to search specific users and see that user's relationship to the client's account. Everything is be nicely displayed in an interactive and easy to use GUI with step-by-step instructions. The GUI has tabs because that is a very intuitive way to divide up how the information is displayed.

GUI:

About Tab

Once you run the GUI, an introductory screen appears and directs the client to the AboutPanel. The client is given information about the rest of the panels and is asked to log-in. Remember to hit [enter] after typing in the username and password. Click "login".

The screenshot shows a window titled "Instagram Followers" with a standard macOS-style title bar (red, yellow, green buttons). Below the title bar is a tabbed interface with four tabs: "ABOUT" (highlighted in blue), "FOLLOWERS", "FOLLOWING", and "SEARCH". The "ABOUT" tab is active, displaying the following text:

Want to learn more about your Instagram followers?
The next killer app designed by Marissa, Sannidhi, and Dee Dee.

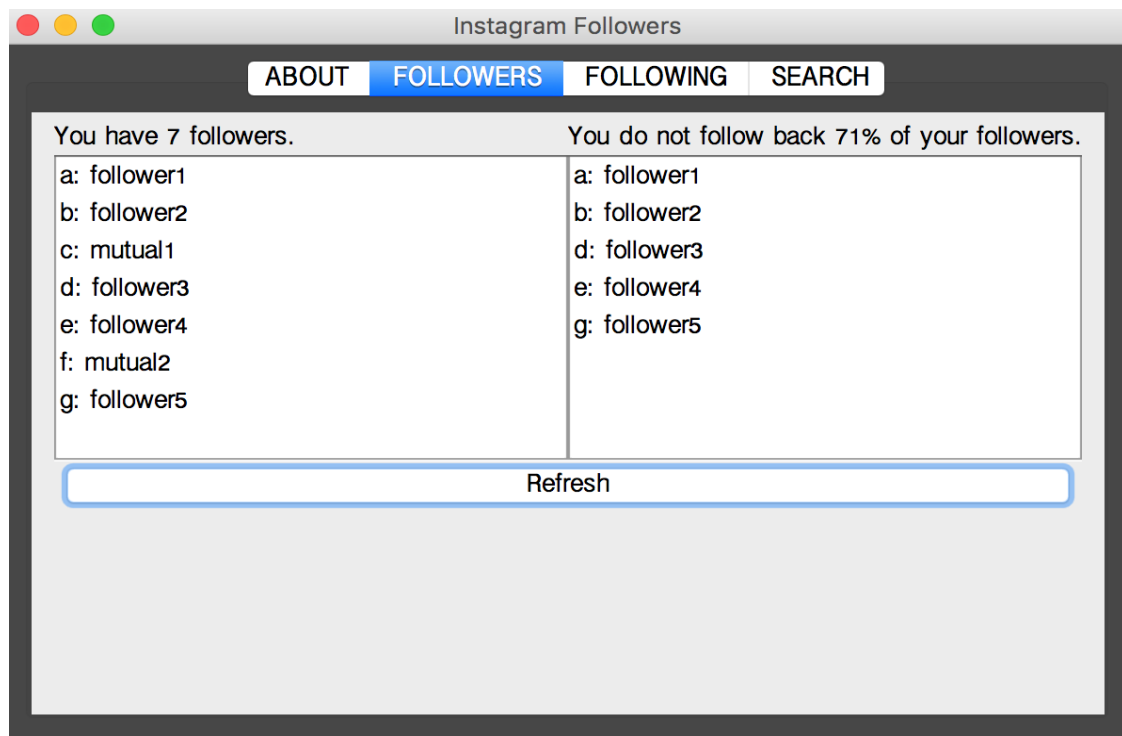

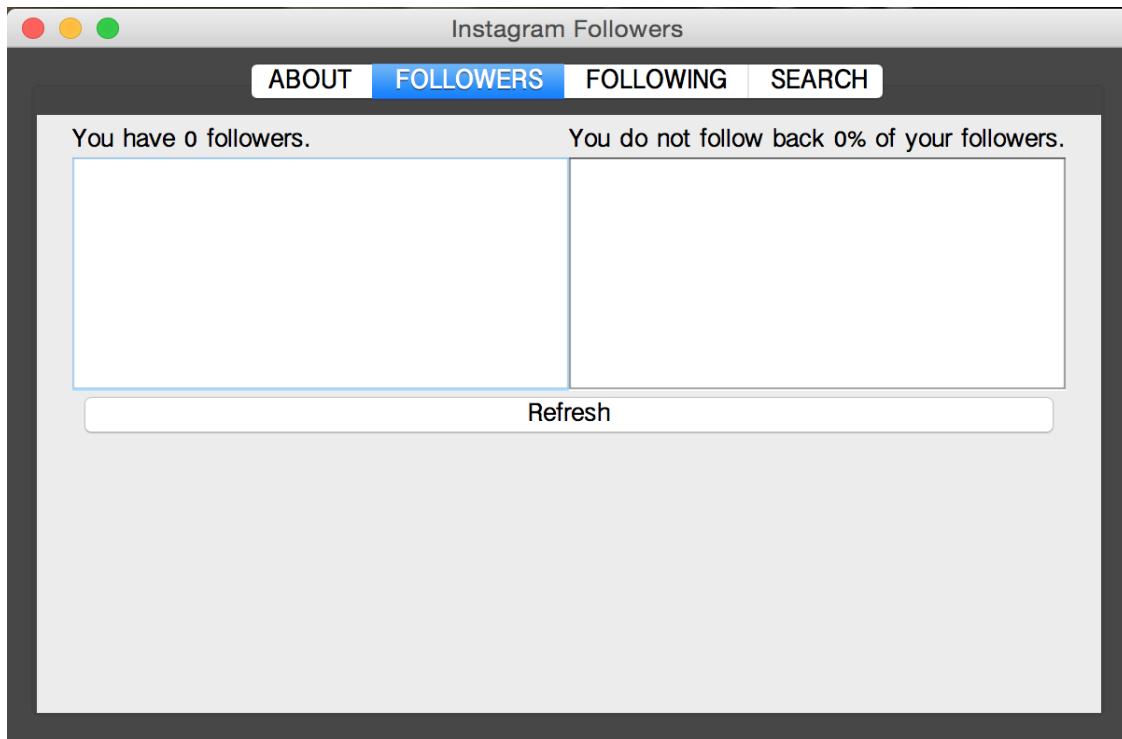

Select the [FOLLOWERS] tab to see who follows you.
Select the [FOLLOWING] tab to see who you follow.
Select the [SEARCH] tab to look up a specific user and see their relationship to your account.
But first, enter your Instagram details below.

Below the text is a login section with two input fields: "Username:" and "Password:". The "Username:" field is currently empty and has a blue border. Below these fields is a large white button with the text "Login".

USER MANUAL
